

# Lakenheath Electronics Design

## Versatile Embedded System Enclosures

### High Performance Environmentally-Sealed Aluminum Enclosures.

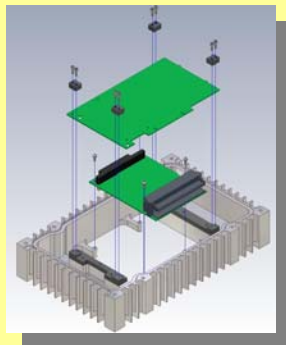

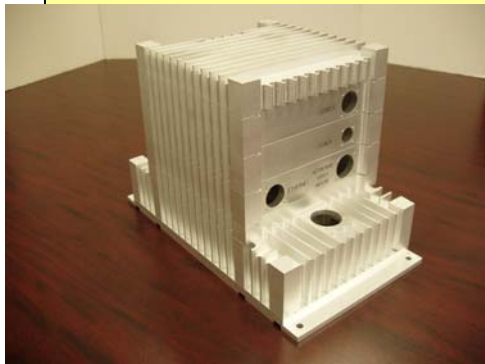

Originally designed to provide a ruggedized solution for the protection of embedded electronics against harsh environments.

- Blind-mate PC/104, PC/104-Plus connections
- O-Ring Environmental Seal
- Metal Mesh EMI Seal

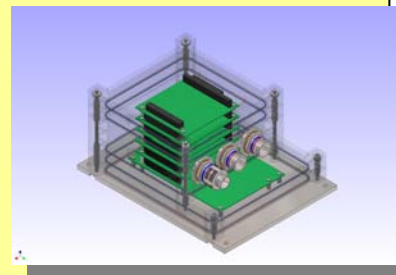

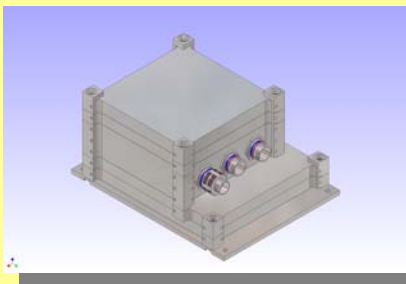

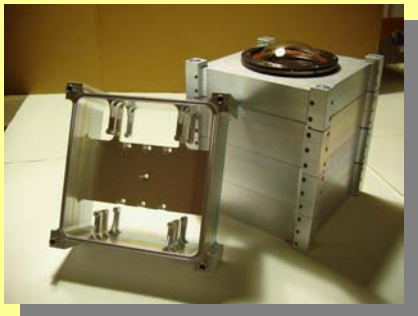

PC/104 and PC/104-Plus Enclosure Systems

- Finned versions for enhanced cooling
- Mixed form-factors
- Various I/O options including
  - MIL-C-24308
  - MIL-C-26482
  - MIL-C-38999

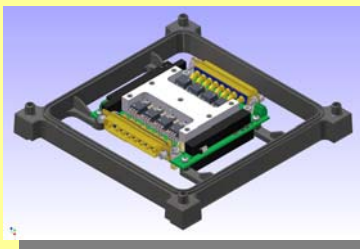

PCI to PC/104 Enclosure Systems

- Integrated Heat Spreaders for Conduction cooling

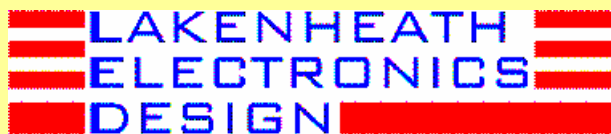

EPIC to PC/104 Enclosure Systems

### Low-Cost Injection Molded Versions.

Integration and Test Services Available
